Natural Language Processing

@Edinburgh

INDUSTRY EXPERIENCE

Yelp, Product Management Intern *Reader Experience 2016*

Shaped the consumer experience of Yelp.com and Yelp mobile.

Launched strategic, data-driven user tracking campaign.

Researched and directed new site-wide feature (unreleased).

Yelp, Engineering Intern *Yelp Reservations for iPad 2015*

Built new, research-driven interface for creating reservations, allowing hosts to run their restaurant in 1/8th previous time.

COLLABORATIVE PROJECTS

Echo Messaging Team of 3 iOS + Web + Server, 2015

An experiment in the way ideas move between people via one-way messaging.
Directed product plan; engineered mobile client; defined project-wide style.

StingRay Renderer Team of 3 OpenGL + C++, 2015

Real-time GPU raytracer that renders scenes with textures, shadows, and reflections.
Researched alternative GPU storage for scene data; developed GPU render program.

Lightning Notes Team of 4 Web + Server, 2015

Note-taking web app that structures and styles text as you type.

Directed product plan; engineered text-restructurer for web; lead interface design.

INDEPENDENT PROJECTS

nighttime software, founder *2010 - present*

Beyond 2048: Two to Infinity! ★ 11,000 Downloads iOS, 2014

Charming reboot of the *Threes!*-inspired game, 2048.

wherEverglades iOS, 2014

Interactive map of environmental and recreational sites in Florida.
Commissioned by the Everglades Foundation.

c.blend iOS, 2012

Robust color palette designer with real-time complements, export, and more.
